History

In April 1988, we established special courses on Japanese culture in the International Cultural and Educational Center of Josai University to deepen mutual recognition and understanding of today's world and Japan. We changed these courses in April 1990, putting in place the current Japanese Studies Program.

Programs

<<Japanese Culture Program>> 1-year program

This program was opened for foreign students seeking to become internationally-minded people with an understanding of the society and culture of Japan. Intensive special courses are offered to learn about the Japanese society and culture.

Classes are taught by teachers with respective areas of expertise. Many graduates find successful careers in the global community or go on to graduate schools and other institutes both inside and outside Josai University.

<<Japanese Language Program>> 1-year program

This program is aimed at providing people wishing to attend universities and vocational schools in Japan with opportunities to study Japanese in a systematic way as well as to acquire the fundamental skills required to learn under the Japanese-based curriculum. Classes use audiovisual education equipment and are taught by experts of Japanese language education.

Admission policy

Based on the spirit of establishing our university, we offer the Japanese Culture Program and Japanese Language Program for people seeking to acquire the abilities and skills that are fundamental in contributing to the international society. These programs are intended for those who:

<<Japanese Culture Program>>

- Have initiative and willingness to understand and study foreign cultures
- Have motivation to address problems of modern society
- Look to upgrade communication and data processing skills

<<Japanese Language Program>>

- Hope to study at Japanese higher education institutions
- Want to learn and use academic Japanese skills
- Have initiative and willingness to study foreign cultures
